

SANGJOON (JOON) LEE

Ph.D. student at University of California, Berkeley

6116 Etcheverry Hall, University of California, Berkeley, CA 94720, USA

✉ sangjoonlee@berkeley.edu | 🌐 <https://sangjoonlee.info/> | ☎ +1 (510) 365 0267

RESEARCH INTERESTS

Fluid mechanics (emphasis in CFD), computational science & environmental flows

- Modeling, computing and analyzing instabilities of aerodynamic or hydrodynamic flows (e.g., aircraft wake vortices) and concurrent mass and heat transfers
- Investigating environmental flow problems that are applicable to clean energy (e.g., wind turbine) and pollution (e.g., wildfire & micro-particle dissemination) issues

EDUCATION

University of California, Berkeley – Berkeley, California, USA

Aug. 2019 -

Ph.D. Student, Mechanical Engineering (Advisor: Dr. Philip S. Marcus)

- Designated emphasis in *Computational and Data Science and Engineering*

Seoul National University – Seoul, South Korea

Mar. 2012 - Aug. 2018

B.Sc., Mechanical & Aerospace Engineering

** 2-year leave of absence for military service*

B.B.A., Business Administration

- Representative of the Engineering Class of 2018 (*Summa cum laude*)

PUBLICATIONS

1. LEE, S., & MARCUS, P. S. (2021). **Linear Stability Analysis of Wake Vortices by a Spectral Method using Mapped Legendre Functions.** *Manuscript in preparation.*
2. LEE, S., & HWANG, W. (2019). **Development of an Efficient Immersed-Boundary Method with Subgrid-Scale Models for Conjugate Heat Transfer Analysis using Large Eddy Simulation.** *International Journal of Heat and Mass Transfer*, 134, 198-208. doi:10.1016/j.ijheatmasstransfer.2019.01.019.
3. BAEK, S., LEE, S., HWANG, W., & PARK, J. S. (2018). **Experimental and Numerical Investigation of the Flow in a Trailing Edge Ribbed Internal Cooling Passage.** *Journal of Turbomachinery*, 141 (1), 011012. doi:10.1115/1.4041868.

TALKS & PRESENTATIONS

1. LEE, S., & MARCUS, P. S. (Nov 21, 2021). **Linear Instability Analysis of Wake Vortices by a Spectral Method using Mapped Legendre Functions.** In *74th Annual Meeting of the APS Division of Fluid Dynamics (APS-DFD)*, Phoenix, AZ, USA. American Physical Society.
2. LEE, S. (Aug 8, 2018). **An Introduction to In-House LES - Applications to Turbine Internal Cooling and Recent Improvements for Conjugate Heat Transfer Analysis.** In *KARI Computational Fluid Dynamics Seminar*, Daejeon, South Korea. Korea Aerospace Research Institute.
3. LEE, S., & HWANG, W. (Jul 6, 2018). **Validation of a Conjugate Heat Transfer Code with Subgrid-scale Models for Turbulent Flow.** In *Proc. KSFM 2018 Summer Conference* (pp. 197-198), Jeju, South Korea. Korean Society for Fluid Machinery.
4. LEE, S. (Nov 3, 2017). **2D Simulation of an Unsteady Flow around a Small Vertical Axis Wind Turbine Using an Immersed Boundary Method.** In *Proc. KSME 2017 Annual Conference* (pp. 741-745), Jeju, South Korea. Korean Society of Mechanical Engineers. *Student Paper Award: Bronze Prize*

FELLOWSHIPS	Departmental Block Grant Fellowship Department of Mechanical Engineering, University of California, Berkeley • Departmental grants offering tuition and fee waivers Aug. 2019 -	
	Overseas Ph.D. Scholarship , Study Abroad Doctoral Program Ilju Academy & Culture Foundation • Merit-based financial aids of \$120,000 for promising Ph.D. students studying out of Korea, selected as one of six recipients in 2019 Aug. 2019 - Jul. 2023	
	National Scholarship for Science and Engineering Korea Student Aid Foundation (KOSAF) • Full-tuition scholarship for undergraduates with strong academic performance Mar. 2012 - Dec. 2017	
RESEARCH EXPERIENCE	Graduate Student Researcher (<i>Director: Dr. Philip S. Marcus</i>) Computational Fluid Dynamics Lab, University of California, Berkeley • Numerical examination of linear instabilities of aircraft wake vortices using a global eigenmode analysis in association with a spectral collocation method. Jan. 2020 -	
	Undergraduate Researcher (<i>Director: Dr. Wontae Hwang</i>) Energy & Environmental Flow Lab, Seoul National University • Development of conjugate heat transfer codes analyzing heat convection and conduction simultaneously with an efficient interpolation scheme for thermal properties • Turbulent channel flow visualization via magnetic resonance velocimetry with cross-validation of large eddy simulation Jul. 2017 - Aug. 2018	
	Research Intern (<i>Director: Dr. Haecheon Choi</i>) Turbulence, Flow Control & CFD Lab, Seoul National University • Large eddy simulation of flow around a rotating small vertical axis wind turbine based on an immersed boundary method Sep. 2016 - Dec. 2017	
TEACHING EXPERIENCE	Graduate Student Instructor , University of California, Berkeley Experimentation and Measurements (MEC ENG 103) • Taught experimental techniques for mechanical engineering, run lab sessions, graded assignments and reports, had office hours and answered questions in person and online • Received Outstanding Graduate Student Instructor (OGSI) Award in Apr. 2021 Aug. 2019 -	
COURSEWORK	Graduate Coursework , University of California, Berkeley (up to Oct. 2021) Advanced Fluid Mechanics, Engineering Aerodynamics, Experimental Methods in Single-and Multiphase Flows, Graduate Ocean Engineering Seminar, Hydrodynamic Stability and Instability, Numerical Solution of Differential Equations, Oceanic and Atmospheric Waves, Optimization Models in Engineering, Spectral Methods for Fluid Dynamics, Teaching of Mechanical Engineering at the University Level, Theoretical Statistics, Topics in Fluid Mechanics - Vortex Dynamics Undergraduate Engineering Coursework , Seoul National University Applied Fluid Mechanics, Creative Engineering Design, Digital Computer Concept and Practice, Digital Fabrication and Manufacturing, Dynamics, Engineering Mathematics, Fluid Mechanics, Heat Transfer, Introduction to Electrical and Computer Engineering, Management in Mechanical Engineering, Manufacturing Processes, Mechanical Drawing, Mechanical Engineering Lab, Mechanical System Design Project, Mechanics and Design, Solid Mechanics, Thermodynamics, Writing in Science and Technology
