

# SANGJOON (JOON) LEE

Ph.D. Candidate at University of California, Berkeley

6116 Etcheverry Hall, University of California, Berkeley, CA 94720, USA

✉ [sangjoonlee@berkeley.edu](mailto:sangjoonlee@berkeley.edu) | 🌐 <https://sangjoonlee.info/>

## EDUCATION

**University of California, Berkeley** – Berkeley, California, USA Aug. 2019 - May 2024 (Exp.)  
*Ph.D. Candidate, Mechanical Engineering (Advisor: Dr. Philip S. Marcus)*

- Designated emphasis in *Computational and Data Science and Engineering*

**Seoul National University** – Seoul, South Korea Mar. 2012 - Aug. 2018  
*B.Sc., Mechanical & Aerospace Engineering* \* 2-year leave of absence for military service  
*B.B.A., Business Administration*

- Graduation representative of the Engineering Class of 2018 (*Summa cum laude*)

## RESEARCH INTERESTS

### Fluid Mechanics (Emphasis in CFD), Computational Science & Environmental Flows

- Modeling, computing and analyzing motions and instabilities of aerodynamic or hydrodynamic flows (e.g., aircraft wake vortices) with concurrent scalar transfers
- Investigating environmental flow problems that are pertaining to clean energy (e.g., wind turbine), pollution control (e.g., micro-particle dissemination & indoor HVAC) and so forth.

## SKILLS

### Parallel Programming & Numerical Analysis

- Python, Fortran, C/C++, MATLAB, MPI, OpenMP, Bash, Git & CFD tools (OpenFOAM, Fluent)

### Interdisciplinary Research & Communication

- Scientific writing, data visualization, academic presentation, problem solving & collaboration

## RECENT PUBLICATIONS

1. LEE, S., SHEIKH, H. M., LIM, D. D., GU, G. X., & MARCUS, P. S. (2023). **Bayesian-Optimal Design of Riblet Surfaces for Turbulent Drag Reduction via Design-by-Morphing with Large Eddy Simulation** [Under Review].
2. LEE, S., & MARCUS, P. S. (2023). **Linear Stability Analysis of Wake Vortices by a Spectral Method using Mapped Legendre Functions**. *Journal of Fluid Mechanics*, 967, A2. doi:10.1017/jfm.2023.455.
3. SHEIKH, H. M., LEE, S. (CO-FIRST), WANG, J. & MARCUS, P. S. (2023). **Airfoil Optimization using Design-by-Morphing**. *Journal of Computational Design and Engineering*, 10 (4), 1443-1459. doi:10.1093/jcde/qwad059.

## FELLOWSHIPS

**Departmental Block Grant Fellowship**, Dept. of Mechanical Engineering Aug. 2019 - Now  
 University of California, Berkeley

- Departmental block grants offering tuition and fee waivers

**Overseas Ph.D. Scholarship**, Study Abroad Doctoral Program Aug. 2019 - Jul. 2023  
 Ilju Academy & Culture Foundation

- Merit-based financial aids of \$120,000 for promising Ph.D. students studying out of Korea
- Selected as one of 6 recipients in 2019

**National Scholarship for Science and Engineering** Mar. 2012 - Dec. 2017  
 Korea Student Aid Foundation (KOSAF)

- Full-tuition scholarship for undergraduates with strong academic performance

RESEARCH  
EXPERIENCE

**Graduate Student Researcher**, University of California, Berkeley Jan. 2020 - Now  
Computational Fluid Dynamics Lab (*Director: Dr. Philip S. Marcus*)

- Numerical examination of linear instabilities of aircraft wake vortices using a global eigenvalue and eigenmode analysis in association with a spectral collocation method
- Optimization of hydro-/aerodynamic designs with a Bayesian inference or a genetic algorithm using the Design-by-Morphing technique

**Researcher**, Seoul National University Jul. 2017 - Aug. 2018  
Energy & Environmental Flow Lab (*Director: Dr. Wontae Hwang*)

- Development of conjugate heat transfer codes analyzing heat convection and conduction simultaneously with an efficient interpolation scheme for thermal properties
- Turbulent channel flow visualization via magnetic resonance velocimetry with large eddy simulation

**Research Intern**, Seoul National University Sep. 2016 - Dec. 2017  
Turbulence, Flow Control & CFD Lab (*Director: Dr. Haecheon Choi*)

- Large eddy simulation of flow around a rotating small vertical axis wind turbine

TEACHING  
EXPERIENCE

**Course Designer / Graduate Student Instructor**, University of California, Berkeley Aug. 2022 - Now  
Introduction to Aerospace Engineering Design (AERO ENG 10)

- Designed and instructed a module for two-dimensional airfoil design and wind tunnel practice

**Graduate Student Instructor**, University of California, Berkeley Aug. 2019 - May 2022  
Experimentation and Measurements (MEC ENG 103)

- Taught experimental techniques for mechanical engineering, run lab sessions, graded assignments and reports, had office hours and answered questions in person and online
- Received Outstanding Graduate Student Instructor (OGSI) Award in Apr. 2021

**Teaching Assistant**, Seoul National University Mar. 2013 - Dec. 2013  
Basic Calculus 1, 2 & Basic Physics 1 (007.098A, 102 & 099A)

- Tutored freshmen who have difficulty in studying university-level calculus and physics

COURSEWORK

**Graduate Coursework**, University of California, Berkeley

- Fluid Mechanics  
Advanced Fluid Mechanics, Engineering Aerodynamics, Experimental Methods in Single-and Multiphase Flows, Graduate Ocean Engineering Seminar, Hydrodynamic Stability and Instability, Oceanic and Atmospheric Waves, Teaching of Mechanical Engineering at the University Level, Topics in Fluid Mechanics - Vortex Dynamics
- Computational Science  
Applications of Parallel Computers, Numerical Solution of Differential Equations, Optimization Models in Engineering, Spectral Methods for Fluid Dynamics, Theoretical Statistics

**Undergraduate Coursework**, Seoul National University

- Engineering  
Applied Fluid Mechanics, Creative Engineering Design, Digital Computer Concept and Practice, Digital Fabrication and Manufacturing, Dynamics, Engineering Mathematics, Fluid Mechanics, Heat Transfer, Introduction to Electrical and Computer Engineering, Management in Mechanical Engineering, Manufacturing Processes, Mechanical Drawing, Mechanical Engineering Lab, Mechanical System Design Project, Mechanics and Design, Solid Mechanics, Thermodynamics, Writing in Science and Technology
- Business  
Capital Markets and Accounting, Corporate Strategy, Fundamentals of Economics, Human Resource Management, International Business Management, Management Information System, Management Science, Managerial Accounting, Marketing Management, Mathematics for Economics, Operations Management, Principles of Accounting, Principles of Management
